Author's corrections to published text

Page 261, Fig. 4a: In going from color to black and white, the coordinates were misplaced (all probes were in the water). The correct Fig. 4a is included here below.

Page 278, Fig. 12: The Panels are mislabeled. The bottom left Panel should be “(c)” instead of “(b)”, and bottom right Panel should be “(d)” instead of “(c)”.

The author thanks Prof. Hernan G. Arango for noticing the above two errors.

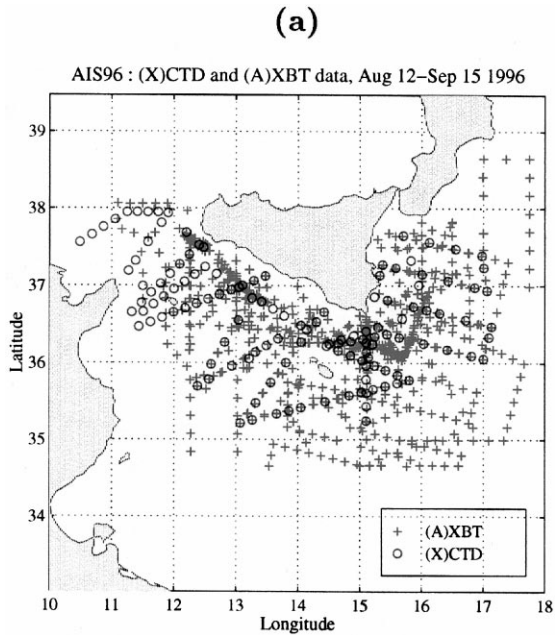

Fig. 4. Panel (a): Coordinates of hydrographic profiles collected during the period August 12–September 15, 1996 of the Operation Rapid Response 96. This is the data set employed in the initialization for Sep. 15, as provided by J. Sellschopp et al., SAACLANTCEN.
